-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1, 3, 4, and 6-16 are pending. Claims 1, 3, 4, 6, 8, 12, 15, and 16 have been amended in this communication filed 08/7/06 entered as Response After Non-Final action and New or Additional Drawings.

Claim Objections

2. Claim 3 is objected to because of the following informalities: Claim 3, line 7 recites "with each of said plurality of radials, said data items ...". This claim limitation should recite "with each of said plurality of radials, said data item ...". Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1, 3, 6, 12, and 15 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. Claims 1, 3, 6, 12, and 15 have steps that are considered critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). Claim 1 recites "in a computer, identifying ...". This claim limitation would be better recited as "identifying in a computer, a centroid from a map database based on a user input search request; defining a plurality of radials extending from said centroid from the map database based on the user input search request;

associating at least one data item having an addressable location with each of said plurality of radials, said item being stored in a memory ...; ... (needs step to tie the claim limitation). Claim 3 additionally recites "locating positions on a respective radial, each said position corresponding to one of the addressable locations; associating each said position to one of the addressable location on the respective radial; placing a marker at each located position of the displayed respective radial; and (needs another step here once the marker is placed and the located position is displayed of the respective radial). Claims 3, 6, 12, and 15 have a similar problem. Claims 4, 7-11, 13, 14, and 16 are also rejected because of their dependency on a rejected base claim.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1, 3, 6, 12, and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 recites "a map database" and "a user input search request". Nothing else is being done with the "map database" and after the "user input search request" in the other claim limitations. This considered intended use. It is unclear what happens in these limitations in the claims.

The dependent claims are also rejected because of their dependency on a rejected base claim.

The claims are not in condition for allowance.
